Final Action on Merits

1. Acknowledgement is made of the response filed in paper no. 13, dated 8/14/03. Claims 1, and 5-9 are pending. Amendments are entered. Presently claimed invention of claim 1, 5-9 drawn to compounds and pharmaceutical formulations of estrogen (A ring is aromatic), having alkyl ether group at 17 position of the D ring such as 1, 3, 5(10) triene-3-ol-17-alkyl ether estradiols.
2. Rejection 35 U.S.C. 103(a) is maintained while other rejections are withdrawn because claims are amended. Rejection under 103 is maintained for the same reasons as set forth in our previous office action because arguments are not found persuasive.
3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. The disclosure is objected to because of the following informalities.

A typing error is noted on page 16, line 29. The 4e compound is hexyloxyestra derivative (see line12 on page 14) and not a butyloxyestra derivative.

Appropriate correction is required.
5. The reference Gridley et al. cited in line 18-19 on page 1 of the specification is incomplete as the Journal name is missing. Applicant is requested to provide a complete reference.
7. Claims 1 and 5-9 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Simpkins et al. (US 5,554,601). Simpkins et al. teach estra-17 substituted alkyl ether for neuroprotection and method for treating neurodegenerative diseases including Alzheimer's disease, which embraces Applicant's claimed invention. Instant claims are drawn to 17-substituted alkyl ether at D ring in a compound having aromatic ring A.

Instant claims differ from the reference by reciting specific species and/or a more limited subgenus than the reference. See formula in col. 4 and Figs 9A and 9B on sheets 9 and 10 where various substituents at R1 and/or R2 are listed, which includes valerate, stearate, and benzyl ether. Arguments that presently claimed invention disclaims methyl ether and ethyl ether at R 17 position, compounds are still considered

obvious due to the reason cited above. Note, that US '601 teaches that "estrogen compound" is defined as any structure described in the 11th edition of "steroids" from Steraloids Inc. and is incorporated as a reference. See lines 50-67 in col. 4. In present application same reference is incorporated. Even though some compounds are disclaimed, other steroids are considered obvious.

In the light of the forgoing discussion, the Examiner's ultimate legal conclusion is that the subject matter defined by the instant claims would have been obvious within the meaning of 35 U.S.C. 103(a).

8. Claims 1, and 5-9 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Amended claims recite "a long chain saturated alkyl, a long chain unsaturated alkyl" is considered a new matter. There is no support for such a long chain alkyl group. Applicants must limit the claims according to the disclosure of the invention.

9. For everyone's convenience applicant should draw the structure of the estrogenic compounds in claim 1.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
